**SEAL THE DEAL
WITH ENHANCED
DENSITY AND
NOISE CONTROL.**

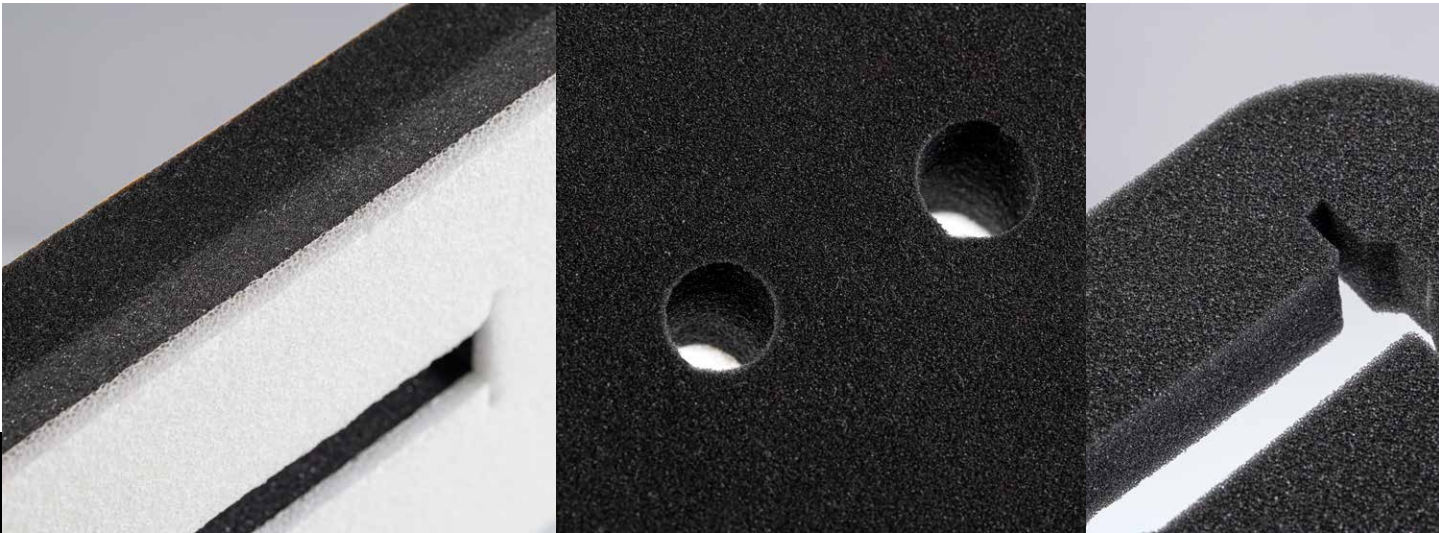

NEVEON

The Future of Foam

OUR SEALING FOAM FAMILY DESIGNED FOR EFFECTIVE AIR AND LIQUID SEALING

NEVEON foams are amazing materials that can control the flow of air and water, as well as other fluids and gases. With different ways of processing them, they can be customized to achieve the desired density and watertightness when compressed. Our foams can

create high-quality and precise sealing materials that can handle any challenge. NEVEON foams are perfect for sealing various components in cars, such as engines and air-conditioning systems. They are also great for sealing HVAC systems in buildings, as they are durable and versatile.

SEALING FOAM PERFORMANCE WITH SUPERIOR QUALITY CONTROL

Our advanced **.sealing** products ensure top performance in air and water seals as well as noise silencing.

These **.sealing** products help achieve effective air seals for both compressed and non-compressed material applications. They provide a controlled and energy-efficient environment through the use of our dependable technology.

Using approved U-tests, our **.sealing** products guarantee a watertight seal which offers robust protection against water infiltration, keeping interiors dry and secure.

Our **.sealing** solutions excel in noise reduction. Dampening noise at its source, internal absorption, and reflection create a serene atmosphere. They ensure enhanced transmission loss, guaranteeing a quieter space.

FOR MOBILITY AND SPECIALTIES APPLICATIONS

Our air **.sealing** PUR foams excel in advanced applications such as lithium battery cooling, air duct sealing (dashboard), HVAC unit sealing, and air dust sealing pads for speakers. These foams provide a reliable solution for dust and air sealing between door panels and door bodies.

Our water **.sealing** PUR foams provide high-performance liquid sealing for applications such as sealing between the cowl top and car body and internal HVAC unit sealing. Experience the benefits of specially formulated PUR foams for noise insulation and reduction, and water sealing in various automotive areas.

NEVEON

OUR SEALS PROVIDE DENSITY AND NOISE CONTROL

All our ester and ether seals are available in blocks, rolls, sheets, converted shapes and designs and material complexes as well as in different Pantone color grades. Contact us for expert advice. We look forward to working with you.

EFFICIENCY

Our PUR air **.sealing** foam is renowned for its superior air sealing efficiency and user-friendly assembly. Tailored for 2D cut parts, it provides a versatile range of conversion options. Versions with low emissions and enhanced fire resistance meeting the stringent FMVSS 302 and UL 94 standards are available.

WATER SEALS

The special PUR W-seal foam types are uniquely designed with water repellency and outstanding water sealing properties. Tailored for 2D cut parts, these **.sealing** foams offer a wide range of conversion options, ensuring versatility in application. Choose from versions with low emissions, biocide properties, and enhanced fire resistance, meeting both FMVSS 302 and UL 94 standards. Our products combine water resistance, environmental friendliness, and improved safety features.

RESILIENT SAFETY

Our special PUR S-sealing and silencing foam types, are crafted for exceptional silencing properties that enhance acoustic comfort. Perfectly suited for 2D cut parts, our **.sealing** foam offers a broad range of converting options. Additionally, it boasts high-temperature resistance, ensuring durability in various conditions. Versions with low emissions and enhanced fire resistance are available, meeting FMVSS and UL 94 standards for added safety.

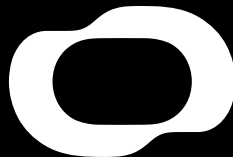

AIR PERMEABLE

Our special PUR **.sealing** foam types are designed with exceptional air permeability for effective post-treat soaking processes. Ideal for window and outer sealing applications, these foams offer versatility and ease of use. This product excels in allowing air permeability, enhancing the performance of post-treat soaking processes for various applications.

We are NEVEON and foam is our world.

As a strong partner of both trade and industry, we offer foam solutions for a huge range of applications, from the comfort segment through the transportation sector to a limitless variety of specialty applications. However, irrespective of how dissimilar our products and their areas of application are, they constantly have a common goal: They improve the energy balance in many contexts and make life more comfortable and safer. Or, in other words, simply better!

CONTACT

We would be pleased to send you additional product information.
Simply get in touch!
We look forward to hearing from you.
